Objective

Computer Engineering student pursuing full-stack development, with project experience building web and mobile applications using React, FastAPI, Java, Spring Boot, Flutter, and databases. Experienced in REST API integration, JWT authentication, database management, responsive UI development, and integrating AI APIs.

Technical Skills

Programming Languages: Java, C++, Python, SQL, JavaScript, PHP

Frontend: React, HTML, CSS, Bootstrap, Flutter

Backend: Spring Boot, REST APIs, FastAPI

Database : MySQL, PostgreSQL, MongoDB, Firebase

Tools : Git, GitHub, Postman, IntelliJ IDEA, Spring Tool Suite (STS), VS Code, Android Studio

Concepts : Object-Oriented Programming (OOP), CRUD Operations, JWT Authentication, Database Management

Education

Institute	Degree/Certificate	Year	CGPA/Percentage
Bajaj Institute of Technology, Wardha	B.Tech – Computer Engineering	Pursuing	6.5
Agnihotri School of Technology, Wardha	Diploma – Computer Engineering	2022–2024	81%

Projects

Cleanify – Home Cleaning Service App **Link**

Java, Spring Boot, Flutter, Firebase

- **Team Size:** 2 | **Role:** Backend Developer | **Tech Stack:** Java, Spring Boot, Flutter, Firebase
- Developed a mobile application that allows users to select home-cleaning services, schedule appointments, and manage bookings
- Developed Spring Boot REST APIs for user management, service listings, and booking operations.
- Collaborated on a full-stack application integrating a Flutter frontend with a Java/Spring Boot backend and SQL database.

AI Finance Advisor – AI-Powered Personal Finance Mentor **Link**

React.js, FastAPI, MongoDB, CrewAI, Gemini API

- **Team Size:** 3 | **Role:** Full Stack Developer | **Tech Stack:** React.js, FastAPI, MongoDB, CrewAI, Gemini API
- Developed a full-stack finance platform to help users track expenses, analyze financial goals, compare EMIs, and explore financial insights.
- Implemented frontend–backend API integration, JWT authentication, and MongoDB data management.
- Built responsive UI components and financial visualizations to present financial data.
- Integrated CrewAI multi-agent workflows and the Gemini API to provide AI-powered financial recommendations.

Certifications

- **Java Programming** – IACT (2023)
- **Python Programming** – IACT (2023)
- **C++ Programming** – IACT (2023)
- **MSBTE State-Level Project Competition** – 2024

Achievements

- **State-Level Project Competition** – Represented college at State-Level Project Competition (MSBTE 2024).

Hobbies Interests

- **Photography**
- **Cooking**
- **Music Composition**
